EXCLUSIVE POSTER RECEPTION SPONSORSHIP

Sponsor the exclusive Poster Reception and present your organization to the new generation of scientists and future industry leaders. By contributing to this event, you will help ISC build a collaborative research community, encourage young researchers and support the HPC science development and exchange.

The sponsor will be associated with an important activity, supporting scientific development and networking, acknowledged for the contribution, receiving an exclusive status, additional brand visibility and increased awareness in the HPC community

ISC 2023 Poster Reception takes place on Tuesday May 23. This is a networking event that is meant to attract attention to the Poster Exhibition that consists of the Research Posters, Project Posters and Women in HPC Posters.

The reception offers an opportunity to the poster authors, their supporters and the Poster Exhibition attendees to get together, exchange their impressions and discuss the latest research results, projects and innovations in an informal atmosphere.

Attendees: scientists, postdoc and other researchers, PhD students and their faculty members, everyone who is interested in the latest HPC research and engineering activities (predominantly academic attendees with a few vendor participants). Access to the reception is open to everyone with an exhibition pass. During the reception drinks, e.g., local beers and soft drinks will be provided. A special grab-and-go food selection and one highlight (e.g., a live cooking station) will make the reception especially attractive to the participants.

Besides the general listing within the conference schedule, all posters will be displayed in a dedicated online poster gallery on the online event platform to increase visibility and accessibility of the contents for onsite and online attendees.

SPONSOR BENEFITS:

• The sponsor status and logo on the ISC online platform linked to the sponsor's dedicated interactive page

• The sponsor's logo in the online schedule on the reception page

• The sponsor's logo and the sponsor designation on the ISC poster program website

• The sponsor can post 2 job/internship/training or educational opportunities in the online HPC career center

• The sponsor will be mentioned in all communication related to the reception (e.g. the reception to be announced in the newsletter)

• The sponsor will receive a table top display (a small table to display marketing materials) and an opportunity to place up two standing banners at the reception area

• The sponsor can distribute giveaways to the reception attendees

This is an exclusive opportunity for one organization only.
