

REUSABLE WATER BOTTLE SPONSORSHIP

- The bottles, preferably wide-mouth bottles, should be reusable and made of friendly material: glass or stainless steel.
→ *Glass and stainless steel are super recyclable and durable. It is a lasting advertising medium for your organization.*
- The bottles should be preferably made regionally or at least in Europe, so transport emissions can be reduced.
- The individual bottles should preferably not be packed in plastic foil.
- Please note: To ensure the bottles can be easily refilled at all water dispensers, they **SHOULD NOT** exceed the maximum height of 25 cm.

Number of bottles required for sponsorship: 4,000

Here are some samples:
